An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Marsh on April 4, 2005.

The application has been amended as follows:

Claim 12, line 6, after "catalyst" insert "precursor".

Claim 19, step "(d)", change "catalysts" to "catalyst".

Cancel claim 34 as being both non-compliant and a duplicate of claim 12.

It should be noted that the response filed February 15, 2005 indicates claims 13, 17 and 19 are cancelled. This is incorrect. These claims were amended in the response.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or suggest the specifically claimed carbon content of the catalyst precursor. The prior art also fails to teach or suggest the specifically claimed process for making the precursor, namely the prior art reacts the source of vanadium and the source of phosphorus at the same time with the alcohol/polyol mixture. In the parent application it was determined that the precursor composition was different from the prior art precursor, therefore the instantly claimed catalyst composition which results from activating the precursor

will also be expected to be different from the prior art catalyst compositions. Further, it would appear from the instant specification that the combination of employing the specifically claimed process steps and using the claimed ratio of components, directly results in the obtained carbon content. The specification also teaches that the particularly selected calcination leaves a different residual carbon content, which results in the best performance and such was not recognized by the prior art of record.

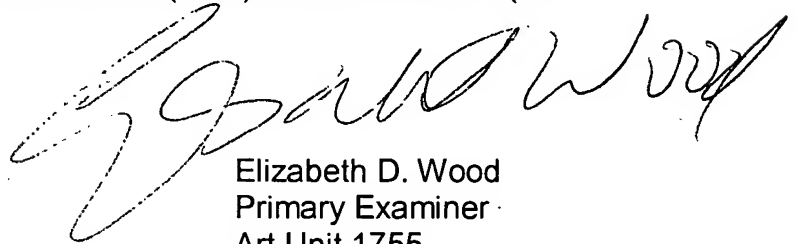

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
